

Microbiome Research at the Interface of Environment, Health, and Agriculture

January 16, 2024

REGIONAL ENGAGEMENT

Engage with the Mid-Atlantic scientific community interested in microbiome sciences. Leaders in the field have been selected as keynote speakers and will attract strong interest from a broad range of scientists in our region. There is ample time to network with the federal experts, distinguished professors and others who are involved in the microbiome sciences in a broad range of applications, including agriculture, environmental sciences, human health, biodefense, and pathogen detection. Ensure your company is part of the conversation.

BRAND AWARENESS

Conference sponsorship allows you to introduce and showcase your company to a highly relevant audience. Prominent signage and other recognition will help raise your company profile and generate new business. Become a sponsor of the conference to enhance and build relationships with key researchers.

LEADERSHIP INITIATIVES

As a sponsor of this meeting, you are ensuring your company is profiled as supporting stronger connections across our region in microbiome sciences. Sponsorship aligns your company with leading industry and academic minds and enhances your reputation as a key supporter of microbiome research.

ABOUT THE MEETING. Organized on the campus of the University of Maryland, College Park, this meeting will bring together microbiome scientists from the University of Maryland and neighboring institutions with the goal of fostering dialogue across disciplinary boundaries. The program will feature oral and poster presentations as well as break-out sessions aimed at addressing current challenges in microbiome sciences. Ample time will be provided throughout the day for social interactions, and the event will end with a reception to allow conversations to continue in an informal setting.
